PROFILE

Software Developer for past 4 years. I use my extensive knowledge of software development and programming to lead the company's initiatives and system objectives. Able to effectively self-manage during independent projects, as well as collaborate as part of a productive team. Also, I just love the process of software development, whereby you can take something from an idea to a real product that many can use.

BACKGROUND

Feb 2020 – Mar 2022

Development Software Tutor, University of Johannesburg

Johannesburg

- Assist them in building projects such as Chat applications, E-commerce etc.
